

29522 Covid-19 Deaths in Care Homes

From the date March 16, 2020 to provide a breakdown of the number of confirmed Covid-19 deaths in Scotland/local authority/region by;

- a) Individual care homes
- b) Care home provider

From the date March 16, 2020, to provide a breakdown of the number of suspected Covid-19 deaths in Scotland/local authority/region by;

- a) Individual care homes
- b) Care home provider

Although I can advise there has been a total of 31 Covid-19 and suspected Covid-19 deaths recorded since 16/03/2020, we do not hold separate records of Covid-19 deaths and suspected Covid-19 deaths.

In terms of providing a further breakdown per care home provider, these are independent businesses and the Edinburgh Health and Social Care Partnership does not collect this data from them. They report to Health Protection Scotland directly on incidences. Their contact details are available on their website at:

<https://www.publichealthscotland.scot/contact-us/freedom-of-information-foi-and-environmental-information-regulation-eir-requests/>

Provide any analysis undertaken by the organisation of care home deaths due to Covid-19 in Scotland. This should include but not be limited to impact assessments, legal advice, statistical analysis, financial impact assessments or other analysis.

There is no such analysis currently held as we are still managing the crisis and have not undertaken any reflective analysis process as yet. There is a national analysis process which is due for publication, and we will be reflecting on its findings.
