

33145

Pertaining to the diagnosis of Autism Spectrum Disorder (ASD) for the past 3 years, 2018, 2019, and 2020.

\*If possible could you please format the data in the age ranges of 0-12 months, 1-3 years, 3-5 years, 5-6 years, 6-8 years.

The number of children ages 6 month to 8 years in your jurisdiction.

Unfortunately, we are unable to provide you with all the information requested because it is not held by the Council. As data for pupils is only held for those who are in P1 (approx. age 5) up to S6 (approx. age 18), below are the only figures that the Council holds.

Please note that the only source for a local authority wide figure is from the National Records for Scotland statistics [City of Edinburgh Council Area Profile \(nrscotland.gov.uk\)](http://nrscotland.gov.uk) where both estimates and projections can be found. However, there is only data for the broader age grouping of 0-15

Overall Pupils	5	6	7	8					
2018/19	4616	4575	4515	4425		Age at Census 18/11/2018			
2019/20	4630	4608	4521	4481		Age at Census 17/11/2019			
2020/21	4253	4602	4571	4469		Age at Census 15/11/2020			

Number of children ages 6 month to 8 years who have been diagnosed with ASD.

Unfortunately, we are unable to provide you with all the information requested because it is not held by the Council. The below is based on data recorded and submitted as part of the pupil census, and as above, only contains data for pupils who are in P1 (approx. age 5) up to S6 (approx. age 18). We have provided the figures by single age, as the request asks for overlapping figures, which can be calculated based on the below figures.

Pupils with ASD	5	6	7	8					
2018/19	64	78	84	96		Age at Census 18/11/2018			
2019/20	67	109	116	113		Age at Census 17/11/2019			
2020/21	76	114	138	150		Age at Census 15/11/2020			

The number of children 6 months to 8 years receiving ASD related services funded by the local Authority.

Unfortunately, we are unable to provide you with all the information requested because it is not held by the Council. As data for pupils is only held for those who are in P1 (approx. age 5) up to S6 (approx. age 18).

However, all the pupils provided in the figures above for question 2 are receiving some kind of support.
