

35162

I'm looking for the number of staff members suspended with full pay over the burning of the memorial benches last year.

I would like a breakdown of which job roles the staff members suspended hold and how long they have been suspended so far with full pay?

The Council is currently carrying out an investigation which is not yet concluded.

Investigations can only be effective if the public authority is able to conduct it in private. To release the information you have requested prior to completion of this process would substantially prejudice the ability of the Council to conduct an internal investigation without outside interference.
