

## 35467 Community Payback Orders

I am looking for the number of hours of community payback orders which have been reduced since the coronavirus act (2020) was implemented.

Ref: <https://www.gov.scot/news/community-payback-orders/>

This includes the breakdown of number of hours cut over a 12 month period - breakdown by month - and the type of community payback orders affected (e.g. unpaid work)

I am looking for figures over the last three years from 2019-2021.

10,006.5 hours of Community Payback Orders have been reduced since the Act was implemented.

The table below provides a monthly breakdown of the number of hours of Community Payback Orders reduced in 2021, all of which had an element of unpaid work.

2021	January	February	March	April	May	June	July	August	September	October	November	December
Hours	0	0	0	9929.5	0	0	0	0	0	0	56	21

There were no reductions in 2019 or 2020 as the Act was not in place until 2021.
