

35526

As part of the Environmental Noise (Scotland) Regulations 2006, agglomerations have conducted noise mapping exercises. In three rounds of noise mapping Noise Action Plans have been produced for agglomerations which recommended Candidate Noise Management Areas. Local authorities took the recommendations of the Noise Action Plans and decided which Candidate Noise Management Areas would progress to adopted Noise Management Areas (NMAs).

Please can you provide a list of all adopted NMAs within the Edinburgh agglomeration area. Can you please provide mapping (shapefiles or drawings) showing the extent of the areas, as the name of the NMAs is insufficient to determine their extent.

List of NMA's attached and below - Edinburgh

Southern section along Home Street	Tollcross 2
