

35594

Number of social workers working with children and families.

There are a number of trained and registered social workers who work in this department but who may not directly work with Children and their families. They may also not have a job title of Social worker. We also have Social workers who have been promoted to be Senior practitioners who cover similar work to social workers but often of more complexity.

The combined total number of the above is 218.18. This does not include the number of staff we have who may be managers etc who are registered as social workers.
