

35773 Social Services Investigations

Out of the 47 children, who were known to the Edinburgh council social services department, that died between 1st January 2017 - 30th November 2021 how many of these deaths were investigated?

The Child Protection Committee has carried out seven Initial Case Reviews (ICR)/Significant Case Reviews (SCR) on children who died during this period.

And of the number investigated, what were the outcomes?

The reviews generate learning which is then taken forward in the most appropriate ways by agencies concerned. All ICR/SCR are reported to the Care Inspectorate who publish regular summaries of thematic learning from all such reviews carried out across Scotland.
