

35890 James Gillespies High School

This request is based on the information on the SQA website:

<https://www.sqa.org.uk/sqa/94723.html>

(If National 5 is selected, an excel spreadsheet is downloaded. Table 5 is Entries and Attainment by sex, 2020.)

I am looking for the same information - entries and attainment for all subjects by sex, for James Gillespies High School (JGHS), rather than the whole of Scotland.

I would like this for Nat 5, Higher and Advanced Higher for the last 3 years where information has been published.

[Please refer to the attached document.](#)

[Given the small number of pupils involved we cannot provide the precise numbers in every case as this could lead to individuals being identified. Where it can be calculated that there are five or fewer pupils in a group, the 'Total Entries' figure has been adjusted to a range to avoid the risk of identifying individuals, in compliance with the Data Protection Act 2018.](#)
