

35924 Pothole Reports & Repairs

The total number of new potholes reported in this local authority in the fiscal year 2020/21.

Our system cannot determine whether a pothole is “new” or not, therefore the number below is the “total” number of defects recorded in the period:

Defects raised from enquiry – 10,125

Defects raised from routine inspection – 24,898

Total – 35,023

The total number of new potholes reported in this local authority up to the point of response to this request the fiscal year 2021/22 (15/02/2022).

As above, we cannot extract data on ‘new potholes’:

Defects raised from enquiry – 6,957

Defects raised from routine inspection – 11,222

Total – 18,179

The total number of new potholes reported in this local authority that were repaired within 24 hours in the fiscal year 2020/21.

Only defects that are inspected and categorised as ‘Category 1’ are targeted for a 24hr repair. In the timeframe, 97 ‘Category 1’ defects were reported and 96 were repaired within 24hrs.

The total number of new potholes reported in this local authority that were repaired within 24 hours up to the point of response to this request in the fiscal year 2021/22 (15/02/2022).

As above, only defects that are inspected and categorised as ‘Category 1’ are targeted for a 24hr repair. In the timeframe (to 15/02/2022) - 17 ‘Category 1’ defects were reported and 17 were repaired within 24hrs.
