

35955

The number of reported dog noise nuisances in your council area which are related to barking/general noise from the last 5 calendar years.

Information held by Environmental Health is provided below. This responsibility was passed to the Localities Family and Household Support Services in October 2016, along with the other ASB noise responsibilities and this information is in the attached document.

2016/17 – Dog Barking & Other Animals – 192;  
2017/18 – Dog – 6;  
2018/19 – Dog – 8;  
2019/20 – Dog – 2;  
2020/21 – Dog – 3

The reason for the elevated numbers in 2016 is that, up until October 2016, Environmental Health also investigated antisocial noise disturbance from dogs.
