

### 36701 Community Alarms

How much money has been allocated to community alarm inspections and assessments in every year since 1999?

There is no specific budget allocation for Community Alarm inspections and assessments.

How many community alarm assessments have been carried out in every year since 1999?

This information is not centrally recorded. As assessments are completed by a range of assessors across the city, and many have multiple outcomes, including installation of alarms, it is not possible to provide a response to this question.

How many community alarms have been installed in every year since 1999?

The information provided below is the number of alarms that have been installed where services remain open. It is not possible to provide information on services that have been closed during this time. There are no such records held prior to 2009.

Year	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Number of new installations still active	68	119	203	332	339	487	590	1,036	1,498	2,090	2,315	1,853	2,525
