

36793 Prayer Vigils

Please list all instances of prayer vigils held by pro-life groups near hospitals or clinics in Edinburgh between 01 July 2021 and 31 December 2021.

For each event please provide approximate locations, dates or frequency, and hours of operation.

Although the City of Edinburgh Council has some involvement in responding to issues associated with vigils and peaceful protests linked to Edinburgh NHS facilities, including abortion clinics, we hold no records, diary entries, or a register of dates/times that vigils have taken place.

In terms of Licensing, the law only requires that marches, parades, or other similar types of moving processions are notified to the Council. While organisers of “static demonstrations” are not required to notify us, the Council we will still record and process such notifications, if supplied. We do not hold any notifications that match the requested information.
