

36843 No.10 Picardy Place Fuel Tanks

Copies of the records referred to in Answers 1 and 2 for response to request 36500:

(Q1. Please confirm your records show No.10 Picardy Place has 4 fuel tanks buried in the basement, which I understand to be:

- a. 1 x 2500 gallon tank sunk in 1935. Decommissioned in 1967, and
- b. 3 x 2000 gallon tanks sunk in 1968. 2 x decommissioned in 1992, final tank decommissioned in 1997.

A1. I can confirm that this matches our records.

Q2. Please confirm whether you have any record of how the tanks at no.10 were decommissioned, and in particular can you confirm whether the tanks were drained and made safe?

A2. There are records to indicate that three tanks were cleaned, drained of their product and made safe in 1992 and 1997.)

The requested documents are available to view at the Council's Headquarters at Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG by appointment.

Please contact Gary Green - Gary.Green@edinburgh.gov.uk to arrange for the documents to be extracted from archives and made available to view at a time that best suits.
