Can you please advise me if your Local Authority is involved with a Social Enterprise organisation or is considering becoming involved with a Social Enterprise organisation to assist homeless people with training, employment and/or accommodation services.

If you are either involved with a Social Enterprise organisation or are considering becoming involved with one can you please advise me of the name of the organisation and their phone number, email address and website.

We work with a number of charities and social enterprises to deliver employability services and although all operate a 'no wrong door approach' and will support or signpost all individuals coming to them, the lead partner in this instance would be Access to Industry who are delivering Encompass, a service which specifically targets residents with complex needs, including homeless individuals. The website for the service is <https://accesstoindustry.co.uk/services-for-adults/encompass/> and phone number is 0131 260 9721.
