

37202 Response

Regarding a desk study at the Saica Factory on Turnhouse Road – please see site location plan.

Are any sites within a 250m radius registered as Contaminated Land under Part IIA of the Environmental Protection Act 1990?

There are no sites within a 250m radius of the site of interest which have been identified as contaminated land in terms of Part IIA of the Environmental Protection Act 1990.

Has the site ever been inspected or prioritised for inspection under the Councils Contaminated Land Strategy?

The site has not been prioritised for inspection in terms of Part IIA of the Environmental Protection Act 1990.

Do you have records of any previous site investigations undertaken within the site or within 100m radius including any remedial works that may have been required?

No records are held relating to previous site investigations undertaken on or within 100m of the site of interest.

Are you aware of any private groundwater abstractions within a 250m radius?

No records are held relating to private groundwater abstractions within 250m of the site of interest.

Are you aware of any invasive species on the site or having previously been on the site?

No records of invasive species on the site.

Do you hold any information for the nearby recorded landfill to the south (Envirocheck Report indicates this data was provided by the local authority)

It is understood that the landfill referred to is located to the south of Glasgow Road. It is not known when the site was opened but records suggest that the site accepted domestic refuse plant residuals and was closed by the end of 1949. No further information is held.
