

37350 Canal View Primary School - New Head Teacher

Has the new Head Teacher been announced to the public and if so who is it?

A new Head Teacher will take up post at Canal View Primary School at the start of the new session 2022/23. The new Head Teacher has been announced to the school community of Canal View, and of their own current school, in line with usual processes. Their name will appear on the school website and associated public-domain information platforms as necessary from the point at which they take up post.

Evidence of input/opinion from the 'supportive parent body' in the decision/selection making process? ie, did the parent body 'have their say'?

In line with council recruitment and selection policy, the recruitment and selection of a Head Teacher consists of a panel made up of relevant council officers, an elected member, a peer Head Teacher, and two parent representatives from the school in question. The recruitment for this post was held in line with this policy (e.g. two parents were involved in the screening of applications, the long leet process, and the short leet process).
