

37421

Could you please provide the total number of people with a diagnosis of autism or a diagnosed a learning disability or both i) whose home area falls within your funding authority, and ii) who have been placed out of your area.

141

Could you please provide the number people with a diagnosis of autism or a diagnosed a learning disability or both i) whose home area falls within your funding authority, and ii) who have been placed out of your area for more than 10 years.

135

Could you please provide the number people with a diagnosis of autism or a diagnosed a learning disability or both i) whose home area falls within your funding authority, and ii) who have been placed out of your area for more than 5 years.

140

Could you please provide the number people with a diagnosis of autism or a diagnosed a learning disability or both i) whose home area falls within your funding authority, and ii) who have been placed out of your area and in an area covered by a health board or other authority in another part of the UK

141

Could you please provide the number people with a diagnosis of autism or a diagnosed a learning disability or both placed out of your area when in crisis

Could you please provide the number people with a diagnosis of autism or a diagnosed a learning disability or both placed out of your area for each of the following reasons. For ease of collation, figures for each reason could be entered into the table below:

Could you please provide the number of people with a diagnosis of autism or a diagnosed learning disability or both placed out of your area and in an area covered by a health board or other authority in another part of the UK for each of the following reasons. Again, for ease of collation, figures for each reason could be entered into the table below.

Unfortunately, we are unable to provide you with the information you have requested for the questions above, as the cost to the Council of locating, retrieving and providing you with the information exceeds the statutory maximum of £600.

It is estimated that this would take 70.5 hours to review the electronic case notes alone. Due to the age of some of the placements paper files may also need to be retrieved and reviewed and this work would be in addition to the 70.5 hours already estimated. At 30 minutes per case, this task would take 141 hours to complete.
