Please provide a breakdown of all costs of installing the recently fitted speed bumps on Orchard Road.

This information is not currently held by the City of Edinburgh Council. These speed reduction measures were installed in an agreement of best value with Scottish Water due to the diversion works as part of their temporary closure of Craighleith Road. The City of Edinburgh Council agreed to make a 30% contribution to the traffic calming measures; however, we have not yet been invoiced for the works.
