

37672 Ferry Road Defect

Please provide:

A copy of the information recorded during the Road Condition Inspection of Ferry Road on the 10th December 2021 carried out by CEC which I am told took place at the location relating to my claim.

[Please refer to the attached Site History Report – Condition Survey for the inspection on 10/12/2021.](#)

Is it CEC practice (either common or uncommon) for road defects noted during roads inspections to be identified by a painted marker, similar to the one shown in the attached photograph?

[It is not uncommon for the City of Edinburgh Council to mark defects, however the markers used by the Council are not similar to the one in the attached photograph. To confirm, the marker on the attached photograph was not applied by the City of Edinburgh Council.](#)
