

37760

Please provide the number of legal claims currently against the council which relate to cycle lanes and the details (e.g. date, location and incident details) for each case.

Unfortunately, we are unable to provide you with the information you have requested as the cost to the Council of locating, retrieving and providing you with the information exceeds the statutory maximum of £600.

There is no data point that we can report from. We currently have around 1050 open claims which would need to be assessed to search for any connection to cycle lanes. In addition, although a cycle lane may be involved, this might not be referred to in the claim.

It is estimated that it would take an officer 5 to 10 minutes to review the details of each claim and to then collate the data. Taking an average, this task would therefore take 131 hours.
