

38850 Pavement Closure on Sciennes Road

Is the pavement on the south side of Sciennes Road, opposite Sciennes primary school, closed to the general public?

The barriers on the road do not extend across the pavement, but it is regularly blockaded, sometimes with tyres, sometimes with cones and at the moment with sections of barrier taken from the building works outside the former Sick Children's Hospital.

No. The information we hold details that permission was given for hoarding on the footway around the site of Old Sick Kids Hospital at Sciennes Road from 14/07/2021 to 27/08/2023 with Road Narrowing (Two-Way Working), although it does not state the footway is actually closed.

If the pavement is officially closed I would like a copy of the order establishing this and also a copy of any risk and/or impact assessments carried out regarding use of this stretch of Sciennes Road by wheelchair users and others with reduced mobility.

Not applicable.
