

38987 South Queensferry High School Annual Energy Consumption

I would like to obtain all years of annual energy kWh consumption so that I can create an excel table and compare Queensferry swimming pool (of current practices) to the energy consumption of Musselburgh Leisure Centre (former technology). I have the floor plans already; I just require data now.

Could I kindly have data for the pool's kWh usage, by month, for all available years?

We do not hold separate records specifically relating to the energy consumption of the swimming pool at South Queensferry High School.

However, provided in the tables below, are the main metered data which covers the whole school. This may limit the usefulness for the purposes of the comparison stated in your request.
