

#### 48099 Engagement With Gypsy / Traveller Community

Could you please let me know whether any of your Community Learning and Development team/Community Workers are actively engaging with the Gypsy/Traveller community and which localities within the Council this is happening?

From time to time, CLD Development Officers (DOs) in Wider Achievement and Lifelong Learning engage with Gypsy/Traveller communities. Currently 2 DOs have indicated that there are some gypsy/travellers accessing community-based youth work in the Liberton, Gracemount and Craigroyston learning communities.

The nature of the engagement (e.g. adult education, welfare support, community capacity building).

Currently community-based youth work.

Contact details for the workers would also be helpful but I understand you may not want to provide contact details through this format.

We do not have one central contact, as the workers engaging with the gypsy/traveller community can vary.
