

48731

The number of Edinburgh schools that currently have a teacher 'surplus'.

13 schools

If there are schools with a surplus, please provide the total number of schools affected and the total number of surplus teachers across these schools.

13 schools & 14 teachers

A breakdown of the number of surplus teachers by each affected school.

One surplus teacher per school with the exception of one school with 2 surplus teachers

For each school identified with a teacher surplus, please provide the reason(s) why it has been determined that there is a surplus.

Falling rolls and subject choices

If the surplus is primarily due to falling school rolls, please include a summary of the expected decrease in school rolls for each affected school.

Current school rolls are in the spreadsheet linked below – based on the most recent census data:

<https://www.gov.scot/publications/school-level-summary-statistics/>

Projected school rolls are available at the link below:

<https://www.edinburgh.gov.uk/school-places/school-roll-projections>

If specific details about individual schools are not possible, I request information on the number of primary and secondary schools affected by teacher surplus.

10 Primary

4 Secondary

Please provide a breakdown of how many teachers leaving or in the process of leaving schools due to a surplus have been matched with another teaching role within the city.

All teachers have now been matched into a new location for the start of next session

Additionally, include the number of surplus teachers who are currently in the redeployment pool or engaged in other work within the council, such as supply teaching.

Zero

Separately, I request an explanation of why teachers are deemed surplus and the process undertaken by the council when this determination occurs.

The Compulsory Transfer process is explained in the links below:
