

53887

Please release any building survey reports in full which have been undertaken by the City of Edinburgh Council in relation to the residential block Westfield Court, from period 2018 to now.

Specifically, any report which considers: the overall maintenance of the building, the building condition with recommendations for improvement, the supply and maintenance of energy systems to the building and any others which may be relevant to Westfield Court.

Where reports may be incomplete or ongoing, please provide as full a report as possible.

Unfortunately, it is not possible to meet your request.

Final surveys to complete the report are taking place currently, officers are updating sections of the report now and aim for a full final release of the report by the end of June 2025. The report will provide information on the structure, roof, external cladding, all mechanical and electrical services (including lifts and communal heating system) and a Fire Risk Assessment.
