

#### 54819 St John's Road - Road Works Cost

I wish to know the full cost for the pedestrian crossing works and road works being carried out on St John's Road between Templeland Road and Victor Park Terrace.

The St John's Road crossing improvements are being delivered as part of a larger contract that also includes improvements at other locations. Unfortunately, it is not possible to fully disaggregate the cost of the St John's Road improvements, as some contract costs are shared across all locations. In addition, as construction works are still underway, final costs are yet to be determined.
