

## 55036 Social Housing Allocations and Immigration Status Data

For the calendar years 2022, 2023, 2024 and 2025 to date please provide the following data related to individuals housed in social housing:

Total number of individuals allocated social housing (either directly by the council or through housing associations, temporary accommodation, or any other housing support provided by the council).

A breakdown of these individuals by immigration/residency status at the time of allocation, specifically categorised as:

- British citizen
- EU national with settled status (EUSS)
- EU national with pre-settled status (EUSS)
- Non-EU national with Indefinite Leave to Remain (ILR)
- Refugee status
- Humanitarian Protection / Discretionary Leave
- Other (please specify if applicable)

Please confirm whether you have nationality or residency data stored or collected for housing allocations, and if so, provide the relevant breakdown. If such data is not held, please indicate the reasons why.

We do not hold the immigration/residency status as suggested above. Instead, as part of the Scottish Government Homeless statutory return, we hold the following categories:

- British / EU Pre 2004
- EU Post 2003
- Other – Eligible
- Not Eligible
- Ukraine Displaced Person

Also, we only record this status for the main applicant and their partner, it is not held for every individual.

The data below is based on households accommodated for a minimum of one day in Temporary Accommodation during the reporting year. Households may be accommodated in multiple years.
