Manse Road Bus Gate removal

What the total end to end costs were including the planning, installation, maintenance and removal of the bus gate?

The cost of installation, maintenance and removal of the bus gate was £38,598. Costs relating to planning and design work for the whole Corstorphine Connections project were recorded as a single block and it is not possible to accurately disaggregate these costs for individual elements, such as the bus gate. We estimate the cost of planning and design work for the bus gate at approximately £5,000.
