

55404 South Water Tank Now Alongside Cowgill Gardens

I would like to see all paperwork and communications (emails/reports/comments) relating to the South water tank now alongside Cowgill Gardens formerly owned by Scottish Water and now owned by Cala.

Specifically, any communications around listed building consent and application to change the use of the tank.

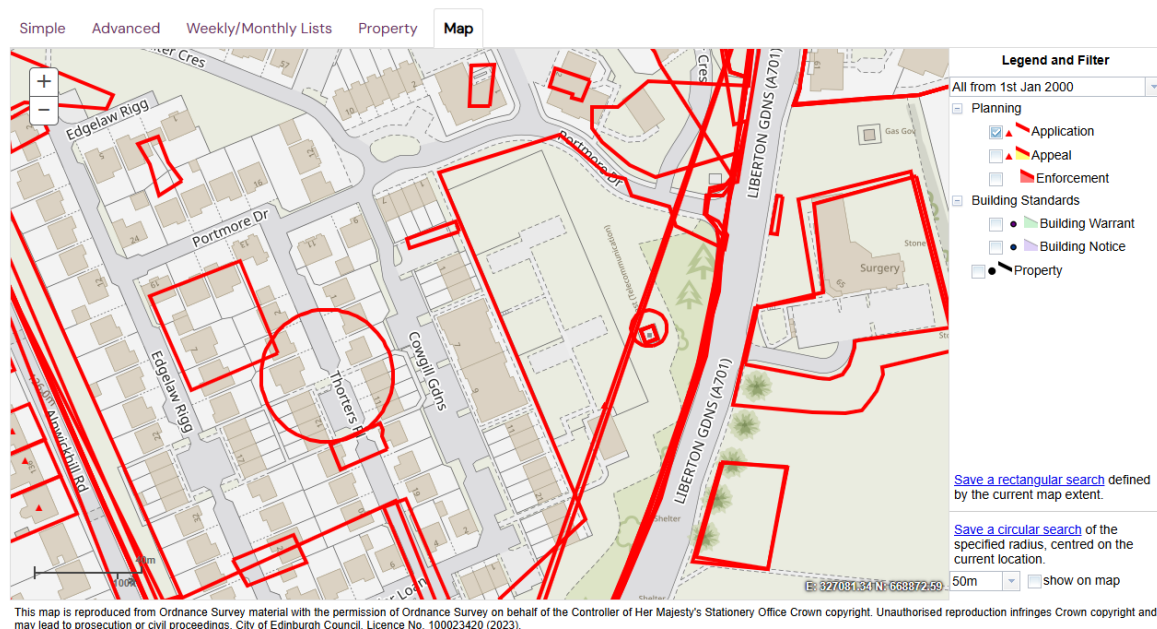

Any communications (emails/reports/comments) around siting a roof garden on top of the listed structure which has been called one of Edinburgh's Hidden Gems.

The information we hold in relation to this structure is published on our Planning Portal.

In this instance a Map Search is probably the best way to find information as there are multiple Planning Applications and Listed Building Consents going back to 2000:

Planning – Map Search

Planning Application 12/00046/PPP and Listed Building Consent 12/01194/LBC from 2012 look to be the main ones, followed by subsequent applications in 2014 (14/00577/AMC and 14/03139/LBC). All of these applications (and more) can be viewed online publicly.
