Since the introduction of the LEZ zone in your council area, how many non-compliant council vehicles have been subject to penalty charge notices in each financial year since the LEZ was introduced. Please break the figures down to show how many PCNs were issued in each separate year for non-compliant council vehicles. Given we are in the middle of the financial year 2025/26, please provides figures so far for this financial year.

None. From the outset, the Council made a significant effort to ensure that its fleet was compliant with the required LEZ standards. The limited number of vehicles that were non-compliant were not driven within the LEZ.

Since the introduction of the LEZ zone in your council area, how much has the council spent in each financial year hiring vehicles in order for its staff to comply with LEZ rules? Given we are in the middle of the financial year 2025/26, please provides figures so far for this financial year.

The Council has not spent any additional monies on hiring compliant vehicles outside of the normal fleet upgrade and replacement cycle.
