Please provide copies of all background information and correspondence relating to plans to bring the Tour de France to Edinburgh in 2027, including the potential budget implications for the council, dated between June 10, 2024 and June 10, 2025.

We are only able to provide part of the information requested and this is attached.

Part of the information has been withheld for the following reasons:

Information is held which provides details of venue and route arrangements and security measures. The Council cannot disclose information about an event without prejudicing its ability to be able to hold open discussions with stakeholders and thereby prejudicing the success of this event and any future events. Releasing this information may deter other organisers from coming to Edinburgh and would jeopardise the reputation of the Council or any third parties we are working with.

By releasing commercially sensitive information into the public domain, it could prejudice the success of this event and any future events. The potential release of information would jeopardise a third party's commercial interests and would therefore constrain the city's ability to attract and facilitate events in the city.

By releasing confidential information into the public domain, it could prejudice the success of this event and any future events. The Council cannot disclose information about an event which may breach confidentiality. Releasing this information may deter other organisers from coming to Edinburgh and would jeopardise the reputation of the Council or any third parties we are working with in regard to this, and any future events.
