If there was a 100% uptake of those eligible for free school meals in P1, P2, P3, P4, P5, P6, and P7 - what would the total cost be?

The school roll across Edinburgh city is 30,571 pupils. If all these pupils were to register, the cost to provide all pupils 1-7 with a free meal, would be £74,898.95 per day.

We can only provide data on those that have registered. We do not hold the data for the total number of eligible pupils as we are not aware of any personal circumstances

If you do not have the figures for those eligible, please let me know the figures for those registered.

P1-5 uptake - 2983 pupils currently registered
P6&7 uptake - 1940 pupils currently registered
