

55768 Stirling Road, Kirkliston Alterations

Stirling Road, Kirkliston alterations to road hump/barriers and signage now installed:

Can you please advise who decided and approved this design to be carried out?

The work was agreed by the Council's Road Safety team.

Were any considerations made to objections or comments by the community council /councillors and public over these proposals and was there any other design consideration or options available?

Members of the Road Safety team considered comments received. The layout reflects current design standards and Edinburgh Street Design Guidance The works undertaken were designed to address the concerns raised.

What was the cost of man hours in preparing this design?

This information was not specifically recorded. However, discussion with the officers suggest ten hours were spent in total, including visiting the site, preparation and design work and including information for our Delivery team and contractors.

What was the cost for going out to tender and the actual cost for these works?

Works were included to an existing contract. There were no tender costs.

The work itself cost £6,444.
