

55803

Request for all recorded information held by the Council (and any third-party contractors engaged by the Council in relation to parking enforcement) concerning the handling of trailers, caravans, and other non-motorised vehicles parked within Controlled Parking Zones (CPZs), particularly in residents' permit-only bays.

This request relates specifically to any policy decisions, enforcement practices, internal discussions, contractual constraints, and public or political responses to this issue.

- Policies and Enforcement Protocols
- Legal and Contractual Constraints
- Internal Communications
- Statistical and Historical Enforcement Data
- Public and Political Impact
- Policy Development or Review

Unfortunately, we are unable to provide you with the information requested because it is not held by the Council.

The Council does not (and cannot) take parking enforcement action against either trailers or caravans (or any other non-motorised vehicles) under parking enforcement legislation due to them not being a motorised vehicle or being registered with the DVLA. This means we will not hold any info in response to the questions asked.
