01/11/2022	12:00:00	Automated Form	TRAFALGAR LANE	Outside the north elevation of the premises at 75 Trafalgar Lane. [personal contact details removed]. I have been trying unsuccessfully to contact the appropriate Council official to discuss the problems experienced by our commercial tenants because of residents' cars parking on the pavement outside the premises and blocking access to the doors. For example, an abandoned car was removed by the Council last week which blocked the roller shutter door of Unit One for some time and the tenant was unable to receive or send out deliveries without considerable difficulty. A short run of double yellow lines would alleviate this problem, such as have already been set up in the street to keep access clear for residents who have parking bays at their houses. Can someone please contact me regarding this matter ?

03/02/2024	01:40:00	Automated Form	TRAFALGAR LANE	The stretch of Trafalgar Lane between Trafalgar Street and South Fort Street. There are still several vehicles parked on/obstructing pavements, forcing pedestrians to walk on the road. This has been happening daily since (and prior to) enforcement of pavement parking coming into effect. It is a particular concern since Lyndsey Road is closed off as the area has become busier with traffic making it harder to safely walk along Trafalgar Lane to enter/exit my home
