

## 56002 Bins - Inspection Records

Please could you look again at a period 01 July 2021 to 31 July 2023? The search should be limited to route numbers LB01 and LB02, if possible. Please also include reports made to supervisors based at CEC's Seafeld Depot regarding issues arising from defects with the bins in question during the period I seek.

Most of the information is provided within the attached spreadsheet. We do not hold any information relating to reports escalated to named Council employees.
