

56024

Could you please list the youth centres and youth clubs operating in your local authority between 2010 and 2025?

Please include information on both youth centres and youth clubs which were either ran and managed by the council, or by the voluntary sector.

We do not hold this information. Youth clubs are delivered according to local demand and resource. By their nature, youth clubs have varied over the years and can change from year to year and term to term.

Lothian Association of Youth Clubs may be able to provide more information on voluntary sector youth clubs <https://layc.org.uk/>

The list of organisations funded by Connected Communities (council grant funding to third sector organisations) that deliver youth provision is available online <https://www.edinburgh.gov.uk/news/article/13882/-10m-to-support-communities-affected-by-poverty>

Please include details on whether they opened or closed within the 2010 to 2025 period.

As above, there is no central record. Many youth clubs and youth provision shifted online and/or focused on street work during Covid lockdowns.

Please include details on the address of the youth centre or youth club (with postcodes).

The addresses of Council operated Community Centres, is provided in the attached document. More information about each centre is available online by searching by Community Centre or by contacting the centre directly.
