

56187 Environmental Desk Study - Riccarton Mains

We have been instructed to undertake a desk study for a site at Riccarton Mains, Edinburgh - please refer to the site location plan attached which highlights the site boundary in pink.

We are wondering if you could please search your records and provide any environmental information you may hold in relation to the site or in the immediate vicinity. Specifically, we are wondering if you could give information on the following:

Are any sites within a 250m radius registered as Contaminated Land under Part IIA of the Environmental Protection Act 1990?

To the south of the site and within 250m radius of the site is Corslet Electricity Substation. Location 318,260.374 668,479.931 Metres. Corslet Electricity Substation is identified as land with potential for contamination.

Has the site ever been inspected or prioritised for inspection under the Councils Contaminated Land Strategy?

The site has not been included or prioritised for inspection under the Council's Contaminated Land Strategy.

Do you have any records of any previous site investigations undertaken within the site or within a 100m radius of the site including any remedial works that may have been required?

There are no known records of any previous site investigations undertaken within the site or within 100m radius.

Are you aware of any private groundwater abstractions within a 250m radius?

There are no known private groundwater abstractions within 250m radius of the site.
