

56361 Librarian changes

Does your organisation have any current plans (either being explored, proposed, considered, consulted on, implemented or otherwise in existence) to alter the provision of librarians in schools (Yes / No)

No plans currently. The libraries service is currently undertaking engagement with library colleagues as part of an organisational change process where plans for any changes will be developed at a later stage.

If Yes, please provide details of the changes being explored / proposed / considered / consulted on / implemented. In this context, I particularly wish to know how many librarians will be working in schools before and after possible / expected / forthcoming / implemented changes.

N/A.
