56386

For the period 1 January 2024 to 31 December 2024:

The total amount paid for electricity supplied to domestic properties that were void during the period (please include standing charges and unit costs)

The total amount paid for gas supplied to the same category of properties

For each gas and electricity supplier used for domestic properties that were void during the period, provide the supplier name and total amount paid (£) to each supplier

We do not hold this information.
The Council had a default energy supplier for void homes over the period requested. Additional spend on energy may have occurred out with the default energy supply contract. Information on spend, breakdown of costs and KWH usage for the time period requested is not available.

The current email address and telephone number of your housing (or void-management) service

Contracts relating to the supply of energy to void energy homes are managed by the Service Improvement team at service.improvement@edinburgh.gov.uk.
