

56428 Westfield Court Tenders from 1952–Present

I am writing to formally request information relating to Westfield Court, EH11 2RJ.

Specifically, I am requesting the following:

Contractor Tenders

Any and all records of contractor tenders involving Westfield Court, in line with:

- The Public Services (Social Value) Act 2012
- The Compulsory Competitive Tendering legislation introduced in 1988

This should include:

- Tender documents or invitations
- Winning contractor(s)
- Scope of work
- Relevant dates

Contract information is published on the Public Contracts Scotland website at:

<https://www.publiccontractsscotland.gov.uk/>

We have identified the following contracts which specifically relate to Westfield Court:

Award of HP0417 – Westfield Court – Condition Survey and Cost Plan

Award of Westfield Court – Replacement of Water Services in Risers

Where Westfield Court works have been contracted through pre-existing Framework Agreements, it is not possible to extract such contractual information without conducting extensive searches of works called-off multiple current and past Framework Agreements across the record retention period of thirty years. For example, we might have an Asbestos Framework that has been renewed three or more times in the 30-year period, where Housing may have called-off contracts for property works through these Agreements. These works may or may not have related to Westfield Court. Only a manual search of each 'call-off' would determine this.

Our current contracts, including Framework Agreements, are published on our Contract register at:

<https://www.edinburgh.gov.uk/contractregister>
