What process was followed after the Council rejected the Planning application for the air supported dome, housing 2 tennis courts?

How was the Reporter appointed?

Who was informed that the Reporter was on site?

Who checked The Reporters report on the accuracy of his report?

What is 'normal' procedure and was this followed?

The Council does not hold this information. The Scottish Government Planning and Environmental Appeals Division would be best placed to advise on these matters as competent determination of the appeal would fall within their remit. Their planning departments general email address is DPEA@gov.scot (full details here on the website here: <https://www.dpea.scotland.gov.uk/contact.aspx>).

How were people/organisations who objected informed that the process had gone to appeal?

People / organisations that objected to the planning application were informed that the process had gone to appeal via an automatically generated letter sent via email. Note a template of the letter has been attached as the original version was generated and issued on 2nd December 2022.
