

## 56499 Library Usage Data 2024/2025

This is a request for library service data. I am submitting requests under Freedom of Information and the Re-use of Public Sector Information Regulations.

For all requests, I would like to receive responses in machine-readable format, such as spreadsheet or CSV file.

Requests are for the financial year 2024/2025 (April 2024 to March 2025).

A count of loans, per library branch, per month.

A loan being an issue or renewal of library stock, at the branch specified. Suggested format is a spreadsheet with column headings of month, branch, count of loans.

[Please refer to the attached spreadsheet.](#)

The top one hundred titles loaned, with a count of each, for the year.

Suggested format is a spreadsheet with column headings of ISBN, title, author, count of loans.

[Edinburgh libraries do not hold this data.](#)

A count of reservations, per library branch, per month.

A reservation is a request for an item to be held for the user. The branch recorded should be the branch that the item is requested to be picked up at.

Suggested format is a spreadsheet with column headings of month, branch, count of reservations.

[Please refer to the attached spreadsheet.](#)

A count of active members, per home branch, for the year.

An active member is anyone registered on the library management system that has recorded library activity within the year.

Suggested format is a spreadsheet with column headings of branch, count of members.

[Please refer to the attached spreadsheet.](#)

A count of visits, per library branch, and per month.

A visit is anyone counted under a footfall monitoring system. If this is done by survey, please provide the survey data.

[Please refer to the attached spreadsheet.](#)
