

56748 Traffic Survey Results - Corstorphine Murrayfield Ward

Please provide the detailed results of all traffic surveys carried out in the Corstorphine Murrayfield ward in the last 12 months.

The Road Safety team undertakes bi-annual batches of traffic surveys at locations where speeding concerns have been raised. Traffic data allows us to direct our resources to the locations where there is significant speed limit non-compliance.

As outlined in the report Evaluation of the 20mph Speed Limit Roll Out, which was approved by the Council's Transport and Environment Committee on 11 October 2019, the Council's Road Safety team will investigate the suitability of further speed reduction measures at locations where average speeds are measured above normal tolerance.

Please refer to the attached list for the traffic surveys carried out in Corstorphine/Murrayfield Ward.

Also provided are the pedestrian crossing assessment results for the Corstorphine/Murrayfield Ward.
