**Subject:** Salamander Street Air Quality

Hi,

We have been instructed by SEPA and Scottish Government to produce the Action plan for Salamander Street and have agreed to do so by the end of the year, in draft form for public consultation. Hence I am trying to get relevant actions together and it seem sensible to work with the categories that we devised in 2018/19, as follows;

1. Air Quality Monitoring
2. Industrial
3. Non-permitted processes e.g. roads, street cleansing and normal port activities
4. Development Control
5. Information to the public

Street cleansing is in there, which is where we need your help.

**Can you please review what I drafted below and make some comments? Obviously it would be better to have something better defined, so if you can commit to anything else that would be great.**

This will need to go around the Head of Service (whoever that will be) and Service Managers who will be invited to a Steering Group with SG, SEPA and Forth Ports et al, in due course!

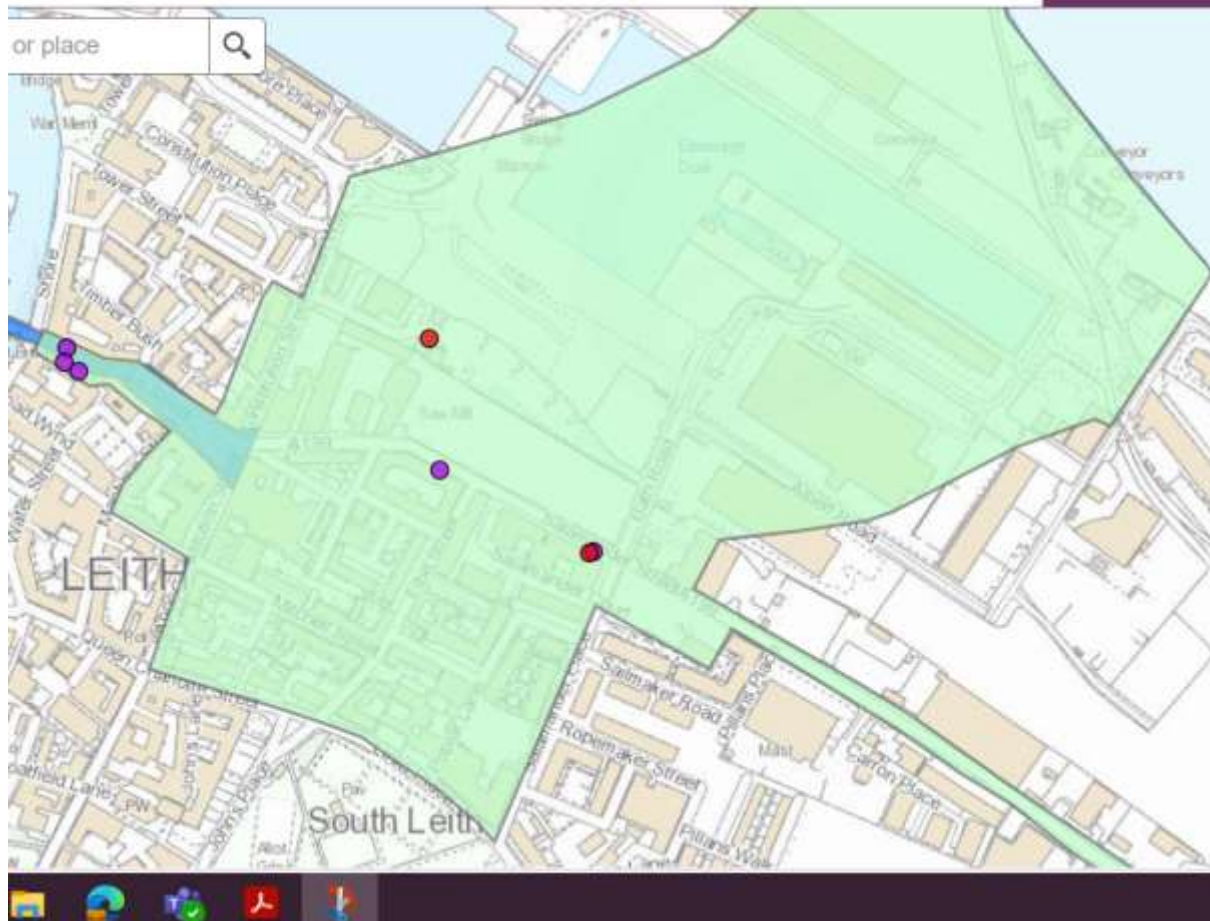

I've completed the funding elements below similarly on other actions. However, there would be annual funding available from a small (£1m Scottish wide) pot, if there is anything that we can help out with.

You can zoom in on the map here; [Air Quality Monitoring Network 2024](#) which I have pasted below too.

Thanking you in advance.

Meas ure No.	Meas ure	Categ ory and Classi ficatio n	Expe cted / Actu al Com pleti on Year	Me asu re Stat us	Deliver y Organi sation( s)	Fund ing So urc e	Fund ing Sta tus	Esti mat ed Cost of Mea sure	Targ et Red ucti on in Poll utan t / Emi ssio n from Mea sure	Key Mile ston es	Com ment s
5	Ensure the mechanical and annual street cleaning route mapping and scheduling is appropriate for local circumstances	Non-permitted processes: Street cleaning	2024	In progress	CEC	CEC	Funded (staff time)	<£10k
