

56798 Dropped-Kerb Offences 2024 to 2025

I am requesting the following information for the periods:

1 January to 31 December 2024

1 January to 31 July 2025 (or 31 August 2025, if available at the time of response)

Dropped kerb offences:

The total number of enforcement actions (tickets, fines or penalty charge notices) issued for vehicles obstructing or parking on a dropped kerb during each period, along with the month in each period that recorded the highest number of such offences.

Please note that the pavement parking legislation came into effect on 29th January 2024.

A total of 1,498 Penalty Charge Notices (PCNs) were issued between 29th January 2024 and 31st December 2024 to vehicles parked adjacent to a dropped kerb/known crossing point. During this period, March saw the highest number of PCNs issued in relation to dropped kerb parking contraventions.

A total of 2,705 PCNs were issued between 1st January 2025 – 31st August 2025 to vehicles that were parked adjacent to a dropped kerb/known crossing point. During this period, August saw the highest number of PCNs issued in relation to dropped kerb parking contraventions.

Please note that the increase in contraventions from 2024 to 2025 is likely attributable to the Council having progressively increased enforcement of the parking contraventions introduced in the Transport (Scotland) Act 2019 (including dropped kerb parking) which was newly enforced legislation in 2024.
