

56831

Please provide details of the number of road closures and the details of the reasons for the closures, for more than 3 months, for construction projects in Edinburgh in the last 5 years.

Please see the attached document which shows all TTROs that involved road closures for over 3 months between August 2020 and present. We have highlighted those that would appear to come under construction works in yellow, however, as there is little detail, other than the 'reason for closure' column, we have provided the entire list.
