

56867 Residential Bin Collection Dataset

Please provide Computer/Machine readable dataset or document (in CSV, JSON, XML or similar format) of scheduled bin collection dates for all residential properties in Edinburgh City Council.

Including house/flat, type of bin collected etc.

By either Postcode or Street Name.

I plan to use this to make an App for Reminder/Schedule/Calendar of Bin due out.

Please find attached the information we currently possess concerning collections for each property, as per the request outlined above;

Additionally, I have included a copy of our 2025 calendar collection dates to assist in establishing date parameters for forecasting future collections.
