How many 2 bedroom houses with front back door and gardens are available for someone within the homeless / temp accommodation sector who's been in for too long?

As at 1 October 2025 there are 10,514 two bedroom homes owned by Edinburgh Council. These include flats, houses, multi-storey homes. There are currently 352 two bedroom homes that are unoccupied. Please note that not all of these are available as some will be undergoing renovations works, capital improvement works etc.

Information on gardens is not stored in a manner that can be obtained from any existing reports. This information is normally added once a home has been checked/inspected by an housing officer prior to the home being advertised.

It is safe to assume that most homes will have access to a garden / drying area, be it shared or private.
