

57348

I'm looking for ward by ward data for finance year 24/25 - on how much council tax was collected by the council for each ward in their district - and also how much commercial rates did they collect from each ward for 24/25.

Please refer to the attached '57348 Q2 information', noting the following:

- * Ward data unavailable but hopefully split by broad post code area will be sufficient.
- ** Data includes payments made towards Council Tax, water and waste water charges.
- *** Includes data for accounts that cover various post codes across Edinburgh.

I'm also looking for population by ward
And population by ward of under 22s, over 66 and those in between.

Please refer to the attached '57348 Q2 information'
